

Wafer Turning Device

“WTD” Series
Accessory to Wafer Plant Automation

Better by Design...

Wafer Turning Device - WTD

In large scale production when many wafer machines must be installed in an existing production area, or in to an existing production line a layout is required, in which the length and breadth of the wafer can be inter changed this facilitates the orientation wafer sheet to the correct layout for the next process.

For maintaining hygiene the parts in contact with the product are made of stainless steel. The machine can be provided with the waste collecting bins below the conveyors.

Technical Data :

Dimensions (in mm)	
Length	1500
Width	800
Height	800
Connected Load (in KW)	0.75
Gross weight (in Kgs)(apprx)	100
Shipping Volume (CBM)	1

*Modifications Reserved

We are constantly guided by our principle of offering our customers better and better machines; to give increased efficiency and higher levels of automation. The technical data and illustrations are subject to change without notice
