Better by Design....

RS TT Series - Baking Ovens

We supply semi automatic machines produces rolled sugar cones, cups or rolls. It is equipped with 9 or 12 baking stations. These machines are designed with latest technical standards for an economical results. These machines are clearly laid out and easily accessible. The bearings and lubricants used are of long life and the links between the baking plate are also maintenance free Baking Plates.

Baking Plates

The plates are made of special alloy. The selection of alloy and casting procedure ensures dimensional stability, a homogenous and dense surface, thermal stability, good heat accumulation characteristics and excellent thermal conductivity. Special finishing is done to ensure trouble free release of wafer sheets.

It can be equipped with 9 - 12 baking stations

Technical Details

Types of Oven	Size of Plate (apprx) <mm'mm>	Type of heating (Electrical)	Number of tongs/ multiple usage	Electrical load in KW	Production** capacity <pcs/h>	
					90 Sec Cycle Time	120 Sec Cycle Time
RSTT 2 - 9 Spl.	300 x 300	Elec	9	20+	360	270
RSTT 2 - 12 Spl.	300 x 300	Elec	12	30+	480	360

Disc Punching

RS-RD 2 Rolling Device

Bowl Punching

** Size, shape and recipe will decide the baking capacity of the product.
The larger thicker the product, longer baking cycle may be necessary.
The figures given above are only indicative.

*Modifications Reserved

We are constantly guided by our principle of offering our customers better and better machines; to give increased efficiency and higher levels of automation. The technical data and illustrations are subject to change without notice
