

Accessory to Wafer Plant Automation

Utility:

If the floor height of different rooms are at different levels you may choose this conveyor design.

TO - 4:

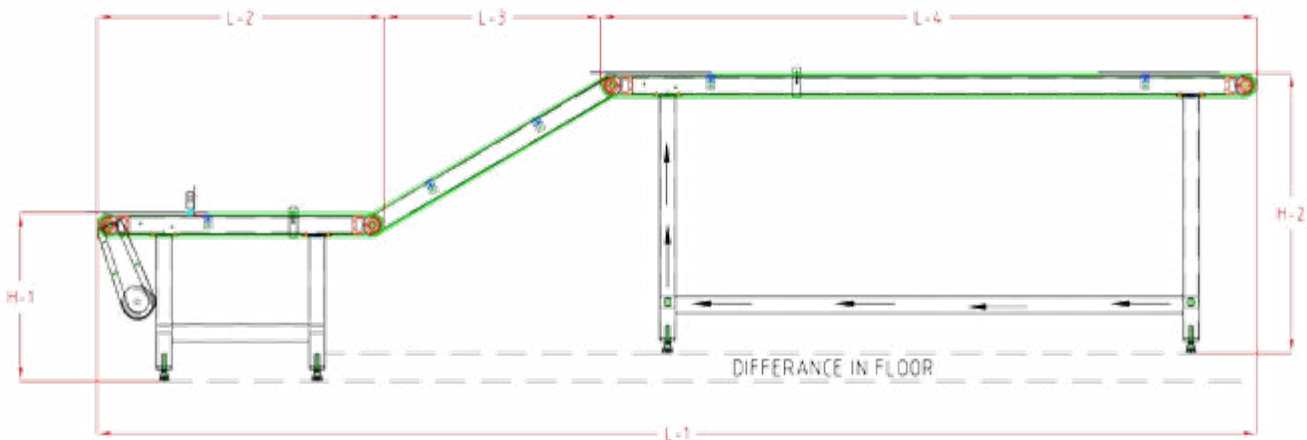

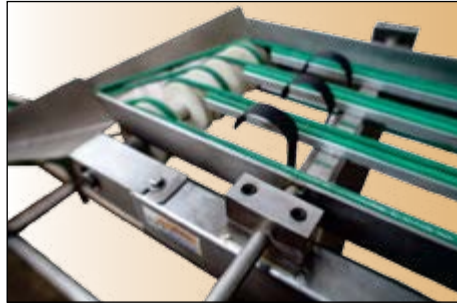

This shows an infeed to an oven & discharge to another room of different floor height.

Better by Design...

TO - 4 Conveyor

In large scale production when many wafer machines must be installed in an existing production area, or in an existing production line a new layout is required, Sometimes floor height of different areas of rooms are different. In this case this could be possible your choice of conveyor.

For maintaining hygiene the parts in contact with the product are made of stainless steel. The machine can be provided with the waste collecting bins below the conveyors.

Technical Details

| Dimensions (in mm) (will vary from order to order) | |
|---|---------|
| Length | 4400 mm |
| Width | 430 mm |
| Height | 1000 mm |
| Connected load in Kw | 0.37 |
| Gross Weight | 100 mm |
| Shipping Volume | 3 |

Wafer Sheet Size :
 Sheet Infeed (SI) :
 Height of Inlet (HI) :
 Height of Outlet (HO) :
 Difference in floor (DF) :
 Length of Conveying :

Any additional attachments required

*Modifications Reserved

We are constantly guided by our principle of offering our customers better and better machines; to give increased efficiency and higher levels of automation. The technical data and illustrations are subject to change without notice
